SENATOR CHAFEE ANNOUNCES SPANISH LANGUAGE WEBSITE

Washington, DC – Senator Lincoln Chafee launched his Spanish language website today. The website, accessed through www.chafee.senate.gov, is a comprehensive, fully interactive replica of Senator Chafee’s English language site.

“I am proud to offer this site to Spanish speaking constituents with the hope that they will use it to access information on my positions, find out about what is happening in my offices and take advantage of the links to other sites that can be helpful. I am committed to keeping these sites as up-to-date as possible. Please stay tuned for some exciting new additions that we are working on to further improve these sites using the most advanced technology available,” Chafee said.

In addition to information about Senator Chafee, these sites offer an archive of all press releases and statements from the Senator, information on internships, instructions on requesting flags flown over the Capitol and other frequently raised issues. The sites also offer links to live coverage of C-Span, all Rhode Island government offices and many helpful sites when planning a trip to visit our Nation’s Capital. Finally, Senator Chafee has made an effort to keep constituents informed through these sites on issues like the recent ricin scare, Amber Alerts and other homeland security issues that are so vitally important to those who visit these sites.
